EXPERIENCE

Cognizant   **Dallas, Texas**
Associate   *June 2022 - Present*

- Developed Android applications, applying software engineering principles to ensure robust and user-friendly solutions.
- Collaborated within a team environment, emphasizing effective planning, execution, and coordination to deliver high-quality applications.
- Played a key role in developing a critical backend service for a Fortune 500 company's mobile app, serving users across the United States.
- Conducted thorough testing and quality assurance to ensure the reliability and performance of the backend service.
- Successfully upgraded the React version for the entire project, addressing compatibility issues and fixing critical bugs, resulting in a smoother and more efficient application.
- Collaborated with my manager to conduct candidate interviews, assessing their qualifications and skills to ensure the selection of capable team members for the project.

PERSONAL PROJECTS

Pool Party   **August 2022**

- Developed a dynamic mobile app facilitating ride-sharing functionality, allowing users to seamlessly request rides or register as drivers.
- Contributed to a collaborative and agile development team, actively participating in weekly sprints to ensure efficient project progress.
- Utilized Kotlin programming language, integrated various Google APIs for enhanced functionality, and leveraged Firebase for real-time data management and user authentication.

PixelGram   **September 2022**

- Developed an engaging mobile app that empowers users to actively interact with posts through commenting, liking, and creating their own posts.
- Collaborated with a team in an agile and pair programming environment to successfully deliver a simulated client project.
- Leveraged Kotlin programming language and harnessed the power of Jetpack Compose for building a modern and intuitive user interface.

SelfQ   **November 2022 - January 2023**

- Developed a comprehensive full-stack web application tailored for internal employees to assess and enhance their knowledge on specific topics.
- Actively participated in an agile environment, collaborating with a team to make data-driven decisions for continuous improvement.
- Leveraged React.js framework and harnessed the power of Amazon Web Services (AWS) for seamless deployment and scalability.
